If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

### DETAILED ACTION

1. Claims 1, 9, 13-35 of U. S. Patent 09/502,133 are before the office for consideration and remain pending. Applicants are thanked for the detailed arguments in their response and are also thanked for the affidavit.

#### *Allowable Subject Matter*

2. Claims 1, 9, 13-35 are allowed over the prior art of record.
3. The following is an examiner's statement of reasons for allowance:
4. Process claims 1, 13-34 were analyzed under 35 USC 101. It is recognized that, in order to be statutory, a process claim must be 1) tied to a particular machine or apparatus, or 2) it transforms a particular article into a different state or thing. *In re Bilski*, 88 USPQ2d 1385 (2008). It is also recognized that a general purpose computer may be converted into a particular computer through the operation of software on the computer. *In re Alappat*, 31 USPQ2d 1545 (1994). For the instant invention, it is clear that the process must be carried out via software operating on a computer. Independent claims 1, 28 require at least a computer processor. As such, the process is tied to a particular machine and meets the *Bilski* test.
5. Claims 9, 35 are directed to a 'computer readable storage medium'. Both of these find support on page 20 (second full paragraph). There is no reasonable suggestion that the medium refers to anything other than a tangible medium.
6. The claims are novel and non-obvious over the art of record. All independent claims now require:

determining an arrangement of the chemically symmetrically  
equivalent atoms and bonds to provide a visually symmetric

expression of the identified chemical structural symmetry in the chemical structure diagram;

This is followed by:

laying out the chemically symmetrically equivalent atoms and bonds in the chemical structure diagram in a two-dimensional pictorial representation of the chemical structure in accordance with the determined arrangement;

The prior art of record, while disclosing perception of symmetry, does not disclose expressing the identified symmetry, as presently claimed in the context of the specification, and in view of Applicant's remarks and the remarks provided in the affidavit. Furthermore, as stated in MPEP § 2131.02, "The identical invention must be shown in as complete detail as is contained in the ... claim." *Richardson v. Suzuki Motor Co.*, 868 F.2d 1226, 1236, 9 USPQ2d 1913, 1920 (Fed. Cir. 1989). The elements must be arranged as required by the claim, but this is not an ipsissimis verbis test, i.e., identity of terminology is not required. In *re Bond*, 910 F.2d 831, 15 USPQ2d 1566 (Fed. Cir. 1990).

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
